How to create a System Restore Point?

1. Right-click the Start button, then select Control Panel > System and Maintenance > System.
2. In the left pane, select System protection.
3. Select the System Protection tab, and then select Create.
4. In the System Protection dialog box, type a description, and then select Create.

If you encounter some difficulties following the steps above, considering you have already purchased Restoro or you are someone who is in need of assistance on your computer, please contact our support and they will be more than happy to assist you.
