

# How to find computer on a network?

Click Start, point to Find, and then click Computer.

- If you know the name of the computer you are looking for, type it in Named. For example: marketing
- If you know the path to the you are searching for, you can specify both the computer and folder name. For example: \\marketing\reports
- Click Find Now.

However, as one of our valued customers, we would like to extend our service and provide you a quick resolution, please contact our Support team now, and they'll be more than happy to help you.
