

# How to Fix 'Page is Having a Problem' Error on Microsoft Edge

## Repair Microsoft Edge from Apps & Features

1. Use the taskbar search option to search for **Apps & Features**, then press **Enter**.
2. Now a list of all the apps on your PC will appear on your screen. Search for the **Microsoft Edge** app, then click on the three dots located on the right side from the name and click on **Modify**
3. After that, you will be prompted with the User Account Control, click on **Yes** to give permission.
4. A window will appear on your screen with the details of what will happen if you choose to repair your Edge browser. Click on **Repair**, then wait until the download and installation are complete.
5. Click on **Close** to close the window, then reboot your PC and test your Microsoft Browser to see if the 'The Page is Having a Problem' error still occurs.
