

How to fix Error 0x80073712 when installing Windows 11 2024- 01 Update

0x80073712 means the component store is inconsistent. The easiest way to fix this error is to repair Windows 11.

How to run In-place upgrade in Windows 11

- Go to Windows 11 website: <https://www.microsoft.com/en-us/software-download/windows11>
 - Under **Download Windows 11 Disk Image (ISO)** select Windows 11 (multi-edition ISO)
1. Once done downloading the ISO, kindly right-click on ISO then click Mount> then Click **Setup.exe**
 2. You may be prompted by User Account Control. If so, click on **Yes**.
 3. In the **Install Windows 11 dialog**, click **Next**.
 4. Setup will check your PC and show a license agreement. Click on **Accept** in the license terms dialog.
 5. Wait for the setup program to check for the available free space.
 6. On the Ready to install page, make sure **Keep personal files and apps** has been checked.
 7. Then click **Install** and just follow the prompt.
 8. Windows 11 will restart your device several times, and lead you to the lock screen.
Depending on the options you set, it will keep all your files, apps, and user accounts.

If you encounter some difficulties along the way, considering you have already purchased Restoro or you are someone who is in need of assistance on your computer, please contact our support and they will be happy to help you.
