

How to fix Task view button not working

Step1: End Task the Windows Explorer.

1. Open task manager (CTRL+SHIFT+ESC)
2. Right-click on windows explorer
3. End task (**Note: don't close Task manager**)
4. Click on File > Run new task
5. Type explorer.exe and press enter
6. Your search bar should be functional again.

Step 2: If Taskbar is not working then I suggest you to check for the latest updates.

- Press Windows logo key +R, enter **MS-settings:** and then press **OK**. This opens Settings.
- In Settings, go to **Update & security > Windows Update**, and then select **Check for updates**. Install any available updates and restart your PC if required.

Step 3: Some problems can be fixed by signing out of your account and then signing back in. Press Ctrl + Alt+ Delete and select **Sign out**. Once you've signed out, sign back in to your account.

However considering you have already purchased Restoro and would like us to assist you in doing that utilizing a remote session, please contact our support and they will be happy to help you.
