How to fix WiFi icon missing in Windows 11

Restart the PC

Install Windows Updates

Reset network settings

1. Go to "Settings" in Windows

2. Select "Network & Internet"

3. Choose "Network Reset

Uninstall the current driver:

1. Open "Device Manager" (Windows + X and select Device Manager)

2. Expand "Network adapters"

3. Right-click on the Wi-Fi adapter and select "Uninstall device"

4. On the confirmation screen, check "Attempt to remove the driver for this device" and click "Ok"

5. Restart the PC

6. Install the driver you downloaded from the manufacturer

However considering you have already purchased Restoro and would like us to assist you in doing that utilizing a remote session, please contact our support and they will be happy to help you.
