How to make Start full screen

To make Start full screen and see everything in one view, select the **Start** button, then select **Settings** > **Personalization** > **Start** , and then turn on **Use Start full screen**.

The next time you open Start, the Start screen will fill the entire desktop. Select **All apps** for a full-screen view of all your apps and programs, or stick with **Pinned tiles** for a more dynamic view.

1. Menu (expands to show names for all menu items)
2. Pinned tiles
3. All apps

If you just want resize the Start menu a bit to make it taller or wider, select the top or side border and drag it.

If you encounter some difficulties following the steps above, considering you have already purchased Restoro or you are someone who is in need of assistance on your computer, please contact our support and they will be happy to help you.
