

How to perform disk cleanup?

1. In the search box on the taskbar, type **disk cleanup**.

2. Select **Disk Cleanup** from the list of results.

3. In Disk Cleanup, select **Clean up system files**.

4. Select the file types to get rid of. To get a description of the file type, select it.

5. Select **OK**.

- **Note:** If you notice that the Temp folder fills up quickly after running Disk Cleanup, see [Low Disk Space error due to a full Temp folder](#).

However considering you have already purchased Restoro and would like us to assist you in doing that utilizing a remote session, please contact our support and they will be happy to help you.
