

How to repair apps and programs in Windows

Repair options from the Settings page

1. Select **Start** > **Settings** > **Apps** > **Apps & features**.
[Apps & features in Settings](#)
2. Select the **More** icon next to the app you want to fix.
3. Select the **Advanced options** link under the name of the app (some apps don't have this option). On the page that opens, select **Repair** if it's available. If it isn't available or doesn't fix the problem, select **Reset**.

Repair options from the Control Panel

1. In the search box on the taskbar, type control panel and select **Control Panel** from the results.
2. Select **Programs** > **Programs and Features**.
3. Right-click the program you want to fix and select **Repair**, or if that's not available, select **Change**. Then follow the directions on the screen.

However considering you have already purchased Restoro and would like us to assist you in doing that utilizing a remote session, please contact our support and they will be happy to help you.
