

# How to resolve MS Word issue not starting?

If you already run a successful Reimage Repair and still encountering the same issues it only means that the reason for Microsoft Word not starting is due to 3<sup>rd</sup> party reasons. To fix this please try to repair your Microsoft Office by following the steps below:

## Repair Microsoft Office

Follow these steps to repair Microsoft Office:

1. Type **appwiz.cpl** in the Search box, and then press **Enter**.
2. Select the **Microsoft Office 2010 suite** you want to repair and then click **Change**.
3. Select **Repair**, and then click **Continue**. You may have to restart your computer after the repair is completed.

*If you encounter some difficulties along the way, considering you have already purchased Restoro or you are someone who is in need of assistance on your computer, please contact our support and they will be happy to help you.*
