

What to do if Microsoft Edge keeps crashing?

1. Close other tabs, extensions, and apps

- Close every tab except for the one that's showing the error message.
Close other apps or programs that are running.
Pause any downloads.
Uninstall extensions you don't need.

2. Restart Microsoft Edge

- Close Microsoft Edge and reopen it:
Try loading the page again.
Tip: You can reopen any tabs that were open before:
Press Ctrl + Shift + t.

If you encounter some difficulties following the steps above, considering you have already purchased Restoro or you are someone who is in need of assistance on your computer, please contact our support and they will be more than happy to assist you.
