Who's behind Restoro?

Restoro® is a world leader of internet-based system repair solutions. The highly acclaimed Restoro® repair solution scans, assesses and repairs the Windows operating system improving speed and ensuring system stability, in addition to restoring settings and registry values compromised by viruses and other forms of malware. This unprecedented technology draws upon its remote online data base of over 25 million updated, authentic and pristine Microsoft files, ready to repair or replace any Windows system file to restore your PC to its full potential.

Our award winning PC repair software and patented technology first appeared on the market in 2018. The success of our product spurred us to further develop this powerful software and create an affordable, simple to use, solution to empower users, enabling them to repair their PCs, at home or at work, fast and at a fraction of the cost.

As always, Restoro® remains as dedicated to its users as it is to its product. We are ultimately committed to our core values: Honesty & Reliability, Innovation & Simplicity.

Our developers at the Restoro® R&D Center are consistently updating and improving our software, to assure compatibility with every new Windows build and Microsoft security patch, from XP to latest Microsoft supported edition of Windows OS.

The Restoro® team consists of 30 highly experienced IT experts and programmers. Our support team provides a 24/7 premium service to all Restoro customers.

If you want to know more about our wonderful product and solution, contact us now.
