

Windows Temp Folder getting filled with CAB-xxxx Files

The CAB-xxxx files that you see in the C:\Windows\Temp\ folder are some temporary files created by different Windows operations, like installing Updates. **You can safely delete these files off from that folder.** Alternatively, you can also run a **Disc Cleanup** to delete the temporary files from your computer.

If you encounter some difficulties following the steps above, considering you have already purchased Restoro or you are someone who is in need of assistance on your computer, please contact our support and they will be more than happy to assist you.
